## President's Letter – Rich NN3W

**G**reetings all in PVRC land!

Unless you've been hiding, we have just had a historic weekend. The CQWW SSB contest just wrapped up, and many in the world of Radiosport are simply saying "wow"!?! When was the last time you can remember 1) "layers of stations" on 10 Meters, 2) working another contester on SSB on 29.120 MHz, 3) beaming towards Europe on 15 and having a 9M2 come back to you, or 4) working more JAs than you do OKs and LZs? Propagation has been noteworthy in past cycle peak periods, but the volume of activity this weekend was nothing short of spectacular.

We hope that if you averted your ears from alligator talkers on SSB last weekend, you will avail yourself to the treat that we expect the Sun to provide us later in November in the CQWW CW test. And remember, unlike most years, this year's running of the CQWW CW is not on Thanksgiving

weekend. In other words, you have no excuse!

Moving away from DX craziness, I do want to remind you – once again – of the epic battle that commences this weekend. It's the Clash of the Titans; the Redskins versus the Cowboys; Good versus Evil; Longcat versus Tacgnol. It's the November Sweepstakes!!!!!!!!!!!!

I need not remind you what this means. PVRC has owned the ARRL Unlimited Club competition gavel for the past five years. Last year was a bit of a "miss" as, while we won the gavel for the fifth year in a row, our main competition – the Northern California Contest Club – seems to have gone on a temporary siesta. Not this year. Take a peek at recent editions of the Jug (NCCC's newsletter); the drumbeats are loud and strong. They are set for a brawl, and we are going to need to respond. I have also heard that Chad WE9V has been whipping up his SMC crew, so this may be a three-way cage

match instead of the long anticipated two-man duel.

As your president (not for much longer, hi hi!), I implore each and every one of you to put some time in this weekend and the weekend of November 16-17. The more QRV stations, the better. If you're going to enter in a very limited capacity, consider doing it either on Saturday evening (after 9:00 pm local) or Sunday evening (after 5:00 pm local). You'll have the thrill of not only being "fresh meat" but also maximizing your efforts on the low bands with shorter distance propagation.

This edition of the newsletter has some advice on how to maximize your score (and your fun), but here are a couple pointers that I keep in mind:

1. From the East coast, stay on the lowest band that is reliably open. That means, you should linger on 40 meters until late in the morning.
2. Just because you hear lots of loud guys in Arizona and East Bay on 10 Meters, you should not be tricked into "running" there. The population densities of the Midwest and East coast favors the West coast on these bands, and your "big" pileup of W6s and W7s will dry up very quickly. K6LL may be running like mad, but you won't be. Trust us on this.
3. If you want to maximize bang for the buck in a limited period of time, consider the above mentioned operating periods, and considering entering "assisted".
4. I know this is a huge mental block for many contesters, consider avoiding the temptation to spend oodles of time trying to find Section #83. Unlike DX contests, in Sweepstakes one more multiplier simply doesn't add much more score to your final tally. In a 500 QSO entry with 70 sections worked, you earn 140 points for each QSO.

Spending 10 to 15 minutes searching for that last section (or second to last section) may get you 1,000 extra points, but you would have gotten that anyhow in just 7 QSOs.

5. You may have a great antenna on 160, but with conditions the way they are, don't even think of going there.
6. Strategize your off times. If you are serious, you should plan on being in that chair until 0800z on Sunday. If you are casual on Sunday, I've noticed that there is a lull in action around 1:00 pm local (wanna bet why?).
7. Lastly, have fun!!!!

Remember, the Sweepstakes CW leg starts this weekend at 2100z which is 5:00 pm local. The SSB leg starts November 16th at 2100z, which is 4:00 pm local owing to the semiannual time change.

One piece of club business before I hit Farragut West:

Every year around this time, PVRC holds elections for its officers and trustees. The following PVRC members have offered to stand in leadership roles for calendar year 2014:

President: Ken Low KE3X  
Vice President: Ethan Miller K8GU  
Vice President: Bud Governale W3LL  
Secretary: Al Knight AA4FU  
Treasurer: Bill Hider N3RR

Trustees: Tyler Stewart K3MM, Don Lynch W4ZYT, Guy Olinger K2AV, Pete Smith N4ZR, Brian McGinniss N3OC, Don Daso K4ZA, Jim Nitzberg WX3B, Tom Gregory N4NW, and Joe Palsa K3WRY

Additional nominations will be accepted until midnight, November 6, 2013. Any nominations should be forwarded to me at my PVRC roster email address or phone number.

Finally, I'd like to extend my thanks to Howie Hoyt N4AF who (after many, many years) is relinquishing his role as administrator for the PVRC e-mail reflector. This behind-the-scenes job has been absolutely critical to maintaining communication amongst the members and helping to ensure that the PVRC community remains active and vibrant. Thank you, Howie! Howie's duties will be taken over by erstwhile member Eric Rosenberg W3DQ. Welcome back, Eric.

Go PVRC, beat NCCC (and SMC)!

73, Rich NN3W

## The Essential Guide to PVRC Sweepstakes Domination - Howie N4AF

WX3B has released our official PowerPoint presentation for this year's Sweepstakes contest effort. It is available for download off the main PVRC web page, or directly [here](#). You need MS Office or open source Office clone, such as Libre Office, or Open Office to view.

Also, the Contesting Wiki has loads of SS information [here](#) – John K3TN

## Membership News – Bud W3LL

PVRC added several new members since the last newsletter. Please welcome:

- In the Annapolis chapter, Dave K3DCW
- In the Southwest VA chapter, Mark KV4KY and Daryl N8AID
- In the No Affiliation Chapter, Zory KB3VQC, Martin K3NDM, Ed W1EG and Gary K3IH (nee KD5ZOF)

Chapter leaders please remember to complete the [Meeting Attendance Report](#).

## Drone Fly-by View of K3LR Multi-multi SuperStation – Zbig KU1T

Greg W8WWV flew his Helo-Drone over Tim K3LR's antenna farm and took video of the location from above showing the towers and antennas. You can see the video [here](#).

## Work Trips Can Be Fun – Bruce WK3A

A couple of weeks ago I was out on the west coast for work in the Southern California area. Since it was not practical to fly back home and out again, I had to stay for the weekend. Not much to do around the hotel for 3 days, so I decided to do some sight-seeing and enjoy the fabulous weather there. I had been to the area a few times but never considered visiting the Queen Mary, the usual Disney and Universal Studios are really not much fun by yourself – plus I've already done them with the kids....and they are getting very expensive too.

Two months ago I had actually worked the club station on 17 meters, and had sent in for their QSL. Being in the back of my mind, I decided to give the “Wireless Room” a look see and maybe meet up with someone there. Looking on top of the Sports Deck, I see a tribander and a multi band vertical, perched waaaay up there, so it was easy to find. Long Beach Radio club volunteers Brian Moore W6PST and Larry Rolewic WA9SVD were there answering visitor questions and were happy to see another ham in the shack. They asked if I had my license on me - well of course I did, so they invited me to be a guest operator.

I was really excited to operate the station, so I filled up a log page with CW Q's and then later a good solid eyeball QSO with the ops on duty. No visit would be complete without a tour of the ship, plus a great lunch in the dining room.

On Duty - Larry and Brian

## EF Johnson's 90<sup>th</sup> Anniversary – Eric W3DQ

EF Johnson Technologies celebrated its 90th anniversary, making it one of the longest standing companies in the LMR industry. EF Johnson officials said the company is proud to remain a wholly U.S.-based manufacturer of mission-critical subscriber radios with a vertically integrated model of design, manufacturing and servicing headquartered in Irving, Texas.
